The following testimonies are from our customers that are using the "Carefree Collars".

"I have been using my adjustable Carefree Collar for close to a year. I am very pleased with it. I also like the way the adjustable cap fits and adjusts.

Paul J. Yoder, Milton, IA
P.S. I haven't had any sores with this collar.

"I like the way the collar fits and most important the way it wears on the horse's shoulder. It's a great product."

Raymond Yoder,
Bloomfield, IA

"We purchased a set of synthetic mule collars for our draft mules that work regularly. Several months and many, many long miles later we now recommend them to our customers. We do not use pads under these collars, no rubs, sore shoulders or gaulded necks. These collars are really durable and easy to maintain. They do not absorb sweat and water. We have replaced all our collars with all new synthetic collars. Our customers like the colored stitching so they can match their collars to the their wagons. We highly recommend these collars to anyone who wants a good looking collar, that's durable and easily maintained."

Keith & Randy Galloway, Romance, AR
